

**Kim Johnson, CPA - Partner**

Kim has over 15 years of experience in the accounting and auditing field. Mrs. Johnson began her career at a Big 4 accounting firm where she gained invaluable experience and served a diverse client base including manufacturing, construction, insurance, not for profit, retail, travel, publishing and timeshare. Currently, she provides companies in the Central Florida area with on-site CFO services on a part time basis. Her expertise is in budgeting/forecasting, cost accounting, project costing, cash flow improvement, profitability analysis, and trend analysis of actual and future revenues and costs. Kim currently assists a diverse client base including a large commercial flooring contractor, construction company, REO, commercial distributor, US call center and land/real estate developer.

Kim has established job costing and work in process reporting systems for multiple clients. Other duties have included internal staff management, payroll tax preparation, internal audits, review and audit packages. Kim has installation and implementation experience with several software packages including QuickBooks, Peachtree, Data Entre' and RFMS.

In addition to providing CFO services, Kim also assists clients in preparing for their annual financial audit. She prepares the entire financial package and audit schedules, as well as, financial footnote disclosures needed for the external auditors. Her experience as an auditor at a Big 4 accounting firm allows her to prepare all the information the external auditors will need. This is an invaluable asset to clients, as it significantly reduces the amount of time the auditors spend at the client's place of business. Kim is a Certified Public Accountant (CPA) and a member of AICPA. She graduated with honors from the University of Central Florida with a BA in Accounting.
